IN THIS MUOVERO E-CATALOGUE, DISCOVER
CURATED CLADDING OPTIONS TO ENHANCE
YOUR INTERIORS. BROWSE ELEGANT MATERIALS
AND FIND INSPIRATION FOR UNIQUE,
SOPHISTICATED SPACES

ABOUT US

Murovero began with a clear purpose: to close the gap in Australia's cladding market. Safe, compliant options were available, but they often compromised aesthetics, leaving builders, architects, and homeowners choosing between fire safety and design.

We set out to change that. Every Murovero cladding solution is certified to Australian Standards and tested for fire compliance internationally, while remaining design-led, visually refined, and built for long-term performance.

Our promise is simple:
LUXURY THAT LASTS!

CREDENTIALS

To ensure ongoing compliance, Murovero maintains strict quality control at every stage:

- Batch traceability & factory inspections to guarantee consistency.
- Third-party audits by accredited Australian testing bodies.
- Periodic re-testing to ensure continued conformity.

MISSION

We deliver bespoke, design-led cladding; certified to Australian Standards so that builders, architects, and installers can transform everyday spaces into exceptional, enduring places that inspire creativity and connection.

VISION

We will be Australia's benchmark cladding brand; setting the standard in compliance, innovation, and design shaping an environment where ideas are realised with intention, elegance, and enduring impact

VALUE

We uphold uncompromising safety and purposeful design while pursuing excellence from specification to installation and delivering sustainable cladding solutions built to endure and elevate spaces for generations.

ACP CLADDINGS

Elevate spaces with Stratum’s architectural precision. Engineered from advanced polymer composites, Stratum delivers superior fire, acoustic, and thermal performance for high-traffic environments. Its layered composition ensures structural strength, easy installation, and remarkable durability against Australia’s climate. Stratum panels are lightweight, quickly mounted, and offer design flexibility for commercial and residential projects seeking safety and modern aesthetics

“Enjoy all Stratum products in all your favourite colours.”
