IN THIS MUROVERO E-CATALOGUE, DISCOVER CURATED CLADDING OPTIONS TO ENHANCE YOUR INTERIORS. BROWSE ELEGANT MATERIALS AND FIND INSPIRATION FOR UNIQUE, SOPHISTICATED SPACES

ABOUT US

Murovero began with a clear purpose: to close the gap in Australia's cladding market. Safe, compliant options were available, but they often compromised aesthetics, leaving builders, architects, and homeowners choosing between fire safety and design.

We set out to change that. Every Murovero cladding solution is certified to Australian Standards and tested for fire compliance internationally, while remaining design-led, visually refined, and built for long-term performance.

Our promise is simple:
LUXURY THAT LASTS!

CREDENTIALS

To ensure ongoing compliance, Murovero maintains strict quality control at every stage:

- Batch traceability & factory inspections to guarantee consistency.
- Third-party audits by accredited Australian testing bodies.
- Periodic re-testing to ensure continued conformity.

MISSION

We deliver bespoke, design-led cladding; certified to Australian Standards so that builders, architects, and installers can transform everyday spaces into exceptional, enduring places that inspire creativity and connection.

VISION

We will be Australia's benchmark cladding brand; setting the standard in compliance, innovation, and design shaping an environment where ideas are realised with intention, elegance, and enduring impact

VALUE

We uphold uncompromising safety and purposeful design while pursuing excellence from specification to installation and delivering sustainable cladding solutions built to endure and elevate spaces for generations.

MDF SLOTTED PANELS

MuroVero brings you MDF (Medium-Density Fiberboard) slotted panels that offer a highly durable and cost-effective solution for sound control. Their precise routing creates effective sound-diffusing and absorbing surfaces, often with an added acoustic backing. Available in veneered or painted finishes, they provide a sleek, architectural look suitable for high-traffic or formal interiors.
